RE: Resource Recovery Certification RR0268-A
Classification - U

Dear Mr. Haake:

This letter is to inform you that the Missouri Department of Natural Resources (MDNR) has completed the review of your resource recovery application. The resource recovery application that was submitted by you and received by the MDNR on October 26, 1996, along with the revisions included in the April 9, 1997, letter to the MDNR will hereafter be referred to as the "approved resource recovery application" or the "approved application."

After a review of your application and the supporting documents, the MDNR hereby certifies, for hazardous waste resource recovery, McDonnell Douglas Corporation - St. Louis, to distill spent solvents in accordance with the following conditions:

1. The owner/operator shall comply with 10 CSR 25-9.020 and all plans and processes described in the approved resource recovery application.
2. The owner/operator shall distill/recover only the wastes listed in the approved application and in the amounts specified at the designated Tract I, Buildings 2 and 51. Wastes must be recovered within Tract I in which they are generated and may not be moved to, or between, any other location at the facility.
3. Still bottoms shall be disposed of as a hazardous waste at an authorized hazardous waste management facility.
4. The owner/operator shall contact the St. Louis County Department of Health, Air, Land and Water Branch, Air

Pollution Control Section, at (314) 854-6923 in order to verify compliance with all federal, state, and local regulations regarding air emissions.

5. All storage of hazardous waste prior to reclamation shall be in compliance with federal and state regulations. This includes proper labeling and secondary containment.

If you have any questions regarding compliance with your certification, please contact Mr. David Maschler, of my staff, at (573) 751-3176.

Sincerely,

HAZARDOUS WASTE PROGRAM

STATE OF MISSOURI
DEPARTMENT OF NATURAL RESOURCES

**CERTIFIED
RESOURCE RECOVERY FACILITY**

Certification for resource recovery is issued to:

McDonnell Douglas Corporation - St. Louis

For the facility located:

McDonnell and Lindbergh Boulevard
St. Louis, MO 63166

CERTIFICATION NUMBER: RR0268-A

A copy of this certificate must be available at the facility during operation.

This certification is valid from the date signed for a period of two years, in accordance with the Certified Resource Recovery Facility Application Form approved by the department. Only wastes listed in the approved application are to be processed at this facility.

It is understood that the acceptance and use of this certification subjects the operator of the above named facility to the applicable requirements of the Missouri Hazardous Waste Management Law and the rules thereunder specifically 10 CSR 25-9.020.

This certification applies only to resource recovery facilities certified under Missouri's Hazardous Waste Management Law; it does not apply to other environmentally regulated areas.
